Conference on Geometric Topology

Indian Institute of Science Education and Research, Pune
Bhaskaracharya Pratishthana

Geometric Topology is an umbrella term which covers the study of various aspects of manifolds, such as riemannian, hyperbolic, toric, complex, contact and symplectic geometry, homotopy-type theory, knot theory, combinatorial and low-dimensional topology among others. This conference brings together experts working in these diverse fields from some of the top institutes around the country. The primary audience of this program are PhD students, post doctoral fellows and faculty members working in geometric topology.

Dates: December 6th - 8th, 2019

Venue: Bhaskaracharya Pratishthana

Speakers:

Indranil Biswas (TIFR), Saikat Chatterjee (IISER Tvm), Mahuya Datta (ISI), Shane De Mello (IISER Mohali), Rukmini Dey (ICTS), Siddhartha Gadgil (IISc), Tejas Kalelkar (IISER Pune), Dheeraj Kulkarni (IISER Bhopal), Ravi Kulkarni (Bhaskaracharya Pratishthan), Rama Mishra (IISER Pune), Mahan Mj (TIFR), Rekha Santhanam (IIT Bombay), Soumen Sarkar (IIT Madras), Harish Seshadri (IISc), Varun Thakre (ICTS), Ajay Thakur (IIT Kanpur), Sushmita Venugopalan (IMSc)

Application:

To apply for this conference please email: mainak@iiserpune.ac.in with the subject title: '*Application for Geometric Topology*'. Student applicants are required to submit their CV and a recommendation from a faculty. Selected candidates will be provided food, accommodation and 3AC train fare by shortest route. Deadline for application is September 15th, 2019.

Organisers:

Tejas Kalelkar, S.A. Katre, Mainak Poddar,
